Texts

Triplum

In virtute nominum quamplures ignari conditores crimi num falso predicari gaudent, dictis hominum putantes equari. Miscet impericia talium delusa, non evitans vicia scribendi preclusa, placidis immicia, sinceris obtusa, albanigris, tristia letis, et profusa nimis arat brevia sub inepta forma. Heccine congeries verborum enormis est picture species picta multiformis, utsi pictor faciat caput femininum cui plumas adiciat et collum equinum, residuum finiat in piscem marinum?

Motetus

Decens carmen edere quicumque volentes, thema decens capere debent et decentes esse: thema promere posse mencientes, honeri subcumbere non liquunt prudentes. Sed scribendi tragicus stilus est in primis in medio comicus non sit, nec in ymis: unus enim modicus alter est sublimis. Verborum coniugium rite celebretur adeo quod vicium minime causetur, et nichil inproprium eminus aptetur, sectus enim precium carmen non meretur.
